

McKenzie Madlan

Area 2 Resident

Brief Statement of Interest

I'd like to carry on the growth directives of the neighborhood and continue to strengthen and build relationships to create a stronger neighborhood.

Background Information

I have lived in the Heights for 10 years, first as a renter on three different streets before buying our current house in the Heights. We love the events, but what's been the most meaningful for me has been the connections I've made interpersonally, through groups like "Buy Nothing," WHNA meetings/volunteering/events, and meeting neighbors on walks! I'm an event planner by day and I'm going back to school in the fall for a Master's in Social Work. I love home decor, gardening, and getting to know people on a deep level. We have a rescue pup and we are looking to eventually grow our family in the Heights as well.

Experience

Event planning and execution, data collection, organization, and implementation, community resource sharing, and communications/marketing creation.

Volunteer and Community Involvement

I worked for a mental health nonprofit for several years and did all event planning as well as the creation and management of ad-hoc committees (including regularly scheduled meetings).
